

Settings Framework

Pricing Matrix

Plans for Settings Framework are customizable depending on your organization's needs, with subscription tiers based on the total number of license units currently in use. We offer the following list pricing for annual subscriptions:

Subscription Tier	Pricing	
	One-Time Setup Fee	Monthly Fee per license unit [†]
Small (1-5 license units)	\$1,500	\$1,995
Medium (6-10 license units)	\$3,000	\$1,595
Large (11-20 license units)	\$4,000	\$1,395
Enterprise (21+ license units)	\$5,000	\$795

[†]1 license unit per production server.

0.5 license units per non-production server (e.g., failover, staging, testing, or development).

How To Get It

Customers who use the J2 Settings Framework tell us that it pays for itself many times over in the form of reduced systems administration and troubleshooting costs. To find out more, visit www.j2interactive.com/settings-framework or drop us a line at the address below. We'd be happy to work out a subscription plan that fits your needs and meets your budget.
